

# The Gathering For Change Agents: Purpose

## **Essence (our way of being):**

The Essence of the Gathering is generative possibility.

## **Blessing (our expression of purpose in each lived moment):**

The Blessing of the Gathering is to nurture the seeds of generative possibility.

## **Mission (our greatest calling):**

The mission of the Gathering is to co-create a world where humanity's divine potential is activated and actualized.

## **Message (our transmission):**

Each and every one has a place and a way that matters. It takes one and all to fully express and contribute to nurturing generative possibilities. All are essential aspects of the whole. Nothing is wasted. Nothing is missing.

There is a place for you here. *This* is our place. *You* matter. You are loved, fully, wholly.

Be joy, be love, be here for each other now. Celebrate and appreciate the beautiful unique gifts and perspectives of all. The world needs every single one of our unique expressions.
